## ILLINOIS HIGH-SPEED RAIL CORRIDOR WORK REACHES FINAL PHASE FOR 2013 IMPROVEMENTS *Amtrak Lincoln Service and Texas Eagle* trains affected by work south of Springfield

CHICAGO – The Illinois Department of Transportation and Union Pacific Railroad are performing the last of three phases of 2013 upgrades to Illinois' signature high-speed route, Chicago-St. Louis, for future 110 mph operation of [Amtrak Lincoln Service trains](#).

The construction work includes the installation of new premium rail with concrete ties and stone ballast; upgrades to bridges, culverts and drainage; signal and wayside equipment installations and upgrades; and roadway-rail grade crossing improvements.

For eight days starting Oct. 16, bridge and culvert upgrades south of Springfield will lead Amtrak to charter buses for *Lincoln Service* (Trains 300-307) passengers at St. Louis, Alton and Carlinville. [Amtrak Texas Eagle](#) (Trains 21/321/421 & 22/322/422) will detour between Chicago and St. Louis for the same period, with alternate transportation in both directions between Joliet and St. Louis.

These infrastructure improvements will enable Amtrak to operate service at speeds up to 110 mph in the future, an increase from the current maximum of 79 mph in effect over most of the route. Starting last Thanksgiving, the Dwight to Pontiac segment became the first part of the corridor to regularly experience trains traveling [at speeds up to 110 mph](#).

In the 11 months since October 2012 (Amtrak Fiscal Year 2013), ridership on the Chicago-St. Louis corridor has increased by nearly 67,000 when compared with the same period a year ago, totaling nearly 627,000 passengers – an increase of 11 percent that sets the stage to break the record of 675,295 set last year. Totals will be available by mid-October.

- more -

Temporary road crossing closures due to construction are updated on a nightly basis on the Official Illinois High-Speed Rail Chicago to St. Louis Project Website, [www.idothsr.org](http://www.idothsr.org).

**About Amtrak®:**

Amtrak is America's Railroad®, the nation's intercity passenger rail service and its high-speed rail operator. A record 31.2 million passengers traveled on Amtrak in FY 2012 on more than 300 daily trains – at speeds up to 150 mph (241 kph) – that connect 46 states, the District of Columbia and three Canadian Provinces. Amtrak operates intercity trains in partnership with 15 states and contracts with 13 commuter rail agencies to provide a variety of services. Enjoy the journey® at [Amtrak.com](http://Amtrak.com) or call 800-USA-RAIL for schedules, fares and more information.
